GREEK DESERT COOKING DIRECTIONS

LOUKOUMADES (HONEY PUFFS)

OVEN METHOD

Preparation instructions for Frozen Pre-fried Loukoumades (Honey Puffs). For best results, thaw product place on a sheet pan and heat at 330F to 350F for three to four minutes. Exact time will depend upon oven style—standard, convection, toaster. The goal is to get them heated all the way through. Each oven is different. Product that is heated too long will develop a hard shell. Puffs are fully heated when all wrinkles are gone and hot in their centers.

FRYER METHOD

Preparation instructions for Frozen Pre-fried Loukoumades (Honey Puffs). For best results, thaw product and then warm in deep fryer for a minimum of 60 seconds. Depending upon the fryer temperature, it may take as much as 120 seconds to get them heated all the way through. Each fryer is different. Product that is heated too long will develop a hard shell. Puffs must be set in a double basket to submerge as they will float and not get heated evenly.

After heating, the best way to syrup the Honey Puffs is to toss them with syrup. One cup of syrup in a bowl, toss the Puffs for 30 seconds and plate using a slotted spoon. This method coats the Puffs with syrup and does not waste the syrup. As they sit on the plate a small pool of syrup should form, but the Puffs are already fully coated.

SIMPLE SYRUP NORMALLY USED:

- 2 cups sugar
 - 1 cups water
 - ¼ lemon
 - cinnamon stick (*optional*)
 - 3 cloves (*optional*)
 - 8oz Honey
- (squeeze juice and then add the squeezed lemon to the syrup)

Stir sugar slowly stirred into 1 cup of boiling water. Bring to a boil and reduce heat. Cook until syrup thickens, about 30 minutes. Take off heat add honey and stir. (This is for a small amount of honey puffs). This makes approximately 16oz.

Garnish with cinnamon. It is optional to sprinkle crushed walnuts or sesame seeds as well
